

What is Innovation

It is the ability to open up to Creative Intelligence that trigger our intuition

Once activated, this kind of intelligence leads us to think out of the box, in non linear manner.

it connects us to unknown solutions that pops up in our consciousness without using linear thinking or cause and effect analytics.

Creative Intelligence is accessible in state of minds that are serene , playful and joyful.

Those golden states are accessible once Disruptive emotions are regulated.

It is also called Intuitive Intelligence and here are some definitions:

Intuitive Intelligence Definition^(*)

Intuitive Intelligence lies beyond the boundaries of science and analytics. It **bridges** the realms of reality and imagination, reason and instinct, material and spiritual dimensions of human existence.

Intuitive Intelligence is **non-linear**, a key skill for success in the new economy, an economy driven by constant disruption and chaos.

Intuitive Intelligence is defined as the combination of 4 abilities:

- The ability to think holistically
- The ability to think paradoxically
- The ability to listen and connect to oneself and others
- The ability to lead by influence rather than design

SELF Reflection :

And you what about your experience in innovation?

in which state of mind did you innovate?

how was your experience?

Can you describe your Social State?
