

What is Value Co Creation

It is the ability to open up to connect to peers in order to find different ways to co design a holistic solution to a defined and complex problem

Collective Intelligence

Collective Intelligence tools such as Appreciative Inquiry or co development tools help Users shape , design and deploy new solutions in time effective manner.

Appreciative Inquiry^(*)

Helps each stakeholder connect to successful experiences in such a way that helps each stakeholder connect to his peers and find out a common identity in order to design and deploy a solution that works.

SELF Reflection :

And you what about your experience using collective intelligence?

How much time does it take you to find and shape a new solutions?

what about new values , what are the tools do you use ?

Can you describe your Social State after running or participating in collective intelligence workshop?
